

1 it would be carried and, if not, it would be lost.
2 Therefore, if your purpose is simply to delete the change
3 made by the Committee on Style, it will not be necessary
4 for you to have a printed amendment, but when the Chair
5 calls for consideration of the particular section, you
6 can get recognition and ask simply that the amendment
7 submitted by the Committee be submitted to separate vote.
8 It would then be put to a vote forthwith.

9 After consideration of the entire article or
10 whatever sections may be embraced in the report of the
11 Committee, for all stylistic amendments you will then have
12 submitted to you the question of approval of the amendments
13 submitted by the Committee on Style. A vote on that
14 does not necessarily mean a vote for adoption of the
15 recommendation. It merely is a vote indicating approval
16 of the stylistic changes.

17 We will then consider the Committee Recommend-
18 ation as open to further amendment, not of stylistic
19 character.

20 If the Recommendation embraces more than one
21 section, we will go through this section by section.
